

# Patient Questions for Healthcare Providers

When is biomarker testing appropriate? Are there any potential benefits or risks for biomarker testing for me?

---

---

How can my biomarker results inform my treatment plan?

---

---

Which biomarkers should I be tested for?  
Will this be a comprehensive test panel?

---

---

Will I need a biopsy or a blood draw for this test?  
What should I expect during that procedure?

---

---

How long will it take to get my results back?

---

---

Who will review the biomarker results with me?

---

---

Are multiple tests needed?

---

---

What information is included in a biomarker test report?

---

---

**What other questions or concerns do you have for your healthcare team?**
